NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

ZINCORE METALS INC.

For the three and nine month periods ended September 30, 2007 and 2006

1/ BASIS OF PRESENTATION

These interim consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles for interim financial statements and follow the same accounting policies and methods of application as the most recent annual consolidated financial statements dated December 31, 2006, except for the items discussed in note 2 below. These financial statements should be read in conjunction with those annual financial statements and notes thereto. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in Canada for complete financial statements. In the opinion of management, all adjustments (consisting primarily of normal recurring adjustments) considered necessary for fair presentation have been included. Operating results for the three and nine month periods ended September 30, 2007 and 2006 are not necessarily indicative of the results that may be expected for the year ending December 31, 2007.

2/ CHANGES IN ACCOUNTING POLICIES

Effective as of January 1, 2007, the Company adopted two new accounting standards related to financial instruments that were issued by the Canadian Institute of Chartered Accountants ("CICA"). These accounting policy changes were adopted on a prospective basis with no restatement of prior period financial statements. The new standards and accounting policy changes are as follows:

a) Comprehensive income (CICA Handbook Section 1530)

Comprehensive income is the change in shareholders' equity during a period from transactions and other events and circumstances from non-owner sources. In accordance with this new standard, the Company reports a consolidated statement of comprehensive income and a new category, accumulated other comprehensive income, is added to the shareholders' equity section of the consolidated balance sheet for any unrealized gains and losses in financial assets classified as available-for-sale. The Company had no "other comprehensive income or loss" transactions during the nine months ended September 30, 2007 and no opening or closing balances for "accumulated comprehensive income or loss".

b) Financial Instruments – recognition and measurement (CICA Handbook Section 3855) and disclosure and presentation (CICA Handbook Section 3861)

In accordance with this new standard, the Company now classifies all financial instruments as either held-to-maturity, available-for-sale, held-for-trading, loans and receivables or other financial liabilities. Financial instruments classified as held-for-trading are measured at fair value with unrealized gains and losses recognized in operating results. Financial instruments classified as available-for-sale are measured at fair value with unrealized gains and losses recognized in other comprehensive income. Financial instruments classified as held-to-maturity, loans and receivables or other financial liabilities are measured at amortized cost.

Upon adoption of these new standards, the Company has designated its cash and cash equivalents as held-for-trading, which are measured at fair value. Advances and other receivables are classified as loans and receivables, which are measured at amortized cost. Accounts payable and accrued charges are classified as other liabilities, which are measured at amortized cost.

During the nine months ended September 30, 2007, the Company had neither available-for-sale nor held-to-maturity financial instruments.
